

SAFA DARWISH

Data Analyst | Business Analyst | Financial & Operations Analytics

Doha, Qatar | Valid QID Holder | +974 71365480 | safadarwish2001@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Results-driven Analyst with an MSc in Economics and hands-on experience in Data Analytics, Business Intelligence, Financial Analysis, and Operations Reporting. Proficient in SQL, Power BI, Python, SAP, Advanced Excel, DAX, and Power Query, with expertise in dashboard development, KPI reporting, financial modelling, forecasting, data visualization, and business performance analysis. Experienced in analysing finance, healthcare, transportation, sales, and operational datasets to generate actionable insights, improve reporting efficiency, optimize business performance, and support strategic decision-making through data-driven solutions.

SKILLS

- **Technical Skills:** Data Analysis, Business Analysis, Financial Analysis, Operations Analysis, Business Intelligence, Dashboard Development, Data Visualization, Exploratory Data Analysis (EDA), Data Cleaning & Transformation, Data Modelling, Data Validation, KPI & Management Reporting, Predictive Analytics, Process Improvement
- **Finance & Business:** Financial Planning & Analysis (FP&A), Budgeting & Forecasting, Variance Analysis, Financial Modelling, Revenue & Cost Analysis, Profitability Analysis, Financial Reporting, Investment Appraisal (NPV & IRR), Credit Risk Analysis, Cost Optimization
- **Tools/Languages:** Advanced Excel, Power BI, SQL, Python, SAP, Power Query, DAX, Tableau, MySQL, R
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication, Stakeholder Management, Cross-functional Collaboration, Attention to Detail, Time Management

WORK EXPERIENCE

Analyst Trainee, Inspire Steel & Aluminium W.L.L, Qatar

Dec'25 - Feb'26

- Analyzed financial, sales, and operational datasets using SQL, SAP, Power BI, and Advanced Excel to evaluate revenue, profitability, cost trends, and business performance, providing actionable insights for management and strategic planning.
- Developed interactive Power BI dashboards and KPI reports by extracting, cleaning, validating, transforming, and visualizing data, enabling real-time monitoring of financial and operational performance across business functions.
- Conducted trend analysis, forecasting, and management reporting while collaborating with cross-functional stakeholders to improve reporting accuracy, streamline reporting processes, and identify opportunities for cost optimization.

Economic Analyst, Nikore Associates, Bengaluru, India (Hybrid)

Dec'25 - Jan'26

- Analyzed transportation, operational, and ridership datasets using Advanced Excel to identify commuter behaviour, travel patterns, operational trends, and performance indicators supporting strategic research initiatives.
- Performed a comprehensive 10-year transport budget analysis by evaluating expenditure trends, funding allocation, and policy effectiveness, delivering evidence-based financial insights and strategic recommendations.
- Cleaned, validated, and transformed large datasets while preparing analytical reports, executive summaries, and stakeholder presentations that improved reporting accuracy and supported policy planning.

Business Associate, Jyesta Corporate Entity, Bengaluru, India

Jul'25 - Oct'25

- Developed interactive Power BI dashboards using CRM data to monitor sales performance, revenue, conversion rates, pipeline movement, and business KPIs, enabling data-driven performance tracking.
- Created optimized data models and advanced DAX measures to automate KPI calculations, streamline reporting workflows, and improve reporting efficiency for business stakeholders.
- Analyzed customer behaviour and sales performance by managing over 250 CRM records, identifying business growth opportunities, sales trends, and actionable insights to support strategic business development.

Data Analyst, NITI Aayog, Delhi, India

May'24 - Jun'24

- Analyzed programme, financial, and operational datasets using Advanced Excel and Power BI to monitor regional performance, expenditure trends, operational KPIs, and programme outcomes.
- Designed interactive dashboards and analytical frameworks to evaluate programme efficiency, identify operational gaps, improve reporting quality, and recommend cost optimization strategies.
- Prepared executive reports and stakeholder presentations by translating complex analytical findings into actionable insights that supported evidence-based policy formulation and decision-making.

Credit-Risk Analyst Trainee, Devi Bankers, Calicut, India

Jul'22- Jul'23

- Evaluated financial statements, borrower profiles, income documents, and credit histories to assess repayment capacity, lending feasibility, financial stability, and overall credit risk.
- Monitored loan portfolio performance by analyzing repayment behaviour, delinquency trends, and early warning indicators to support proactive credit risk management and portfolio quality.
- Prepared structured credit risk reports, compliance documentation, and financial summaries while maintaining data accuracy, regulatory compliance, and effective documentation standards.

EDUCATION

Master of Science Economics

Gokhale Institute of Politics and Economics, Pune, Maharashtra, India

Jul'23 - May'25

Bachelor of Arts Honours Economics

University of Delhi, Delhi, India

Jun'19 - May'22

ACADEMIC PROJECTS

Automotive Sales Dashboard | Power BI

- Designed and developed an interactive Power BI dashboard integrating multi-year automotive sales, revenue, gross profit, GP%, and branch-level KPIs using advanced DAX calculations and optimized data models.
- Developed Year-over-Year sales growth analysis, profitability metrics, branch contribution analysis, and drill-through reporting to monitor business performance and support executive decision-making.
- Automated management reporting using dynamic dashboards and interactive visualizations, enabling faster performance tracking, operational monitoring, and strategic sales analysis.

Healthcare Costing & Financial Analysis Dashboard | Power BI

- Analyzed over 10,000 healthcare records using Power BI, DAX, and Power Query to evaluate cost allocation, profitability, service-level financial performance, and operational KPIs.
- Developed financial dashboards, calculated measures, and integrated healthcare datasets to support cost analysis, reimbursement reporting, benchmarking, and financial planning initiatives.
- Identified major cost drivers including Length of Stay (LOS) and ICU utilization, providing actionable insights for cost optimization, resource planning, and operational efficiency improvements.

Holiday Package Purchase Prediction | Python | Scikit-learn

- Developed an end-to-end machine learning solution using Python to predict customer purchase behaviour by performing data preprocessing, feature engineering, exploratory data analysis, and model development.
- Built and evaluated multiple machine learning algorithms using Scikit-learn with hyperparameter tuning, selecting the K-Nearest Neighbours (KNN) model based on overall predictive performance.
- Generated predictive customer insights that identified high-potential customer segments, enabling targeted marketing strategies and improving data-driven business decision-making.

CERTIFICATIONS

- Complete Python Bootcamp – Udemy
- Python 3 Certification Course – Programming Hub
- JPMorgan Excel Skills Job Simulation – Forage
- Power BI Certification
- WISSENAIRE IIT Bhubaneswar Finance Certification Program

ADDITIONAL INFORMATION

- Languages: English, Malayalam, Arabic, Hindi

ACADEMIC ACHIEVEMENTS

- Secured **Rank 2** in MSc Economics
- UGC NET Qualified (Economics)
- GATE Qualified (Economics)
- Research Paper: **Impact of Recent General Elections on the Stock Market: A Comparative Analysis of India and the USA**
- Published Article: **Inspiring the Next Wave of Female Entrepreneurs: She Means Business**
